NUMB. 745

WEDNESDAY, NOVEMBER 23. 1737.

910 753.

Yesterday arrived the Mail due from Holland.

LETTERS of the 5th Instant, O. S. from Vienna, mention Advices from Hungary, which are the Reverse of those brought by the former Mail, and say that the Turks have given the Emperor's Troops in Imperial Wallachia another Defeat. The Particulars that are publish'd of it are these; viz.

The Commandant of Krajova being march'd out that Place, with about 2000 Men, to favour the retreat of General Ghilani, who was encompass'd on all Sides by the Turks, was attack'd in the Way by a Body of the Infidels, who entirely routed the Imperialists, notwithstanding their vigorous Defence; so that a Battalion of the Regiment of Salques was almost entirely defeated, most of the Officers being put to the Sword, and the rest made Prisoners. 'Twas apprehended, that the Turks will improve this Advantage, to seize the Castle and Town of Krajova, which would give them an open Passage into Transylvania, where the Alarm was already very great.

The Commission appointed to inquire into the conduct of the Count de Seckendorff has not yet met; and they say the Reason is, because none of the Members that are nominated, cares to accept of the Office of President of the said Commission: So that when it will sit, or who will be the President, is as yet unknown. The Velt Marshal de Khevenhuller, who came to Vienna, upon Affairs relating to that Count, is returned to Hungary to take the Command of the Forces upon him, in the Room of the Velt Marshal Philippi, who is likewise order'd to repair to Court.

That we may not be thought too partial in Favour of the Count de Seckendorff, because he is a Protestant, we will continue to give our Readers the Reflections which are made upon him by a Foreign Gazetteer, who is a much Catholic, in an Article from Vienna, of the 10 N. S.

The repeated Remonstrances, says he, of the Czarina and of the King of Poland, were in part the Cause of Count Seckendorff's being recalled from the Army, and of his being arrested so soon after his Arrival in this City. These two Powers, whose Attention cannot be suspected, either of Self-interest or Jealousy, when they were fully inform'd by their Officers in the German Armies of the true Reasons of the ill Success of the Campaign, thought themselves oblig'd to impart them to the Emperor, and the General Officers of his Imperial Majesty, who did not think it prudent to be the first to speak in an Affair of this Nature, being thereupon consulted, the Mystery is more and more unfolded, and in a very critical Time to prevent the total Ruin of the Imperial Army. For, continues the Author, 'tis certain, that if the Count de Seckendorff had commanded the Army but six Days longer, the 4 Regiments of Horse and the six Battalions which he detach'd under Pretence of reinforcing the Garrison of Rawna, and which the Velt Marshal Philippi so happily recall'd, would have been intercepted and cut to Pieces by the Infidels; and 'tis apparent, that if he had stay'd but 10 Days longer in his disadvantageous Camp of Sabatich, without any Line of Circumvallation, weaken'd as he was by the Detachments that he had made, separated from the Body under the Prince of Saxe Hilburghausen, and (which is vastly surprizing, when 'tis consider'd what a Number of Boats he had) without so much as one Bridge upon the Save, to retire over in case he had been push'd, or to bring any Assistance from the other Side: All these Things, I say, put together, 'tis even more than probable, that if the Count de Seckendorff had held the Command of the Army on the 28th, 29th, and 30th of October, it wou'd have been attack'd and defeated by the Bashaw of Bosnia.

The same Writer in another Article from Vienna of the 2d O. S. says, 'That besides a Guard of two Officers posted in the Count's Chamber, his Table is served in the Chinese Manner, where the

Victuals are brought to Table ready cut, and that his Service is very much like that of the Arabs, who have generally neither Knives at their Table nor Forks. He is likewise furnished with Pens ready made to his Hand, and of these a good Number, for they say he uses abundance, and that what he writes one Day, he generally blots out and tears to pieces the next. Five Coffers that are very heavy, and all over plated with Iron, have been brought hither and laid up in the Imperial Palace, which we are assur'd were seiz'd in the Country of Zips, by Prince Lubomirski, and that they are full of Ducats and other Species of a good Alloy, which a Purveyor in the Imperial Army was sending to some Northern Country.

There are particular Advices by this Mail from Vienna, that Prince Wencelaus of Lichtenstein, is set out as Ambassador for the Court of France, and a Courier arrived at Brussels from Vienna, in 6 Days and a Half says, he left Orders at every Post to have Horses ready for his Excellency's Journey.

Hague, Nov. 26, N. S. The States of Holland separated last Saturday, in order to meet again the 11th of next Month. The Resolution of the States General upon the last Answer of the Courts of Vienna and France, with respect to Bergue and Juliers, was delivered Yesterday to the Imperial and French Ministers.

Concerning Gleet and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, Strains, Pollution, or any other Cause whatever; that they are dangerous in their Consequences, as difficult to cure, as is certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectic Fevers, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Languor, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, Urinary Emissions, excessive Nocturnal Pollution, or any Weakness of the Kidneys, Ureters, or Bladder, the Disturbance of the Urine, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, safe, speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Cure after having for many Years been experienced to cure and fail perfectly curing the most Stubborn Gleet, in a few Days, without Difficulty or Trouble; as also other Weaknesses of the Back, Reins, Seminal Vessels, Urinary Passages, which it almost instantly cures, restores to rights and restoring all those Parts and Passages to a natural Tone and putting Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weaknesses and Disorders of Constitution of any Kind, and particularly those of the Back, Reins, Seminal and Urinary Vessels to an immediate degree, inasmuch that in any Debility of them, one Dose does more than ten of any other Remedy yet found out, and all Persons fatigued with Gleet or Seminal Weakness, or Sort, or Weaknesses of the Urinary Vessels, who take it, in three Days time find it so very efficacious, that they will most agreeably be surpris'd at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; it too cannot be said in vain, that All who ever took it for any of the above-mentioned Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Effect one Pot alone being sufficient in most Cases to procure a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. BATH'S Toy-shop, at the Rose and Crown against St. Clements Church-yard in the Strand, ready sealed up, with a full Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

The most Fam'd and long Experienced Chymical

For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such common Success and Benefit to the Publick, by Mr. Parry and his Predecessors, in Boar's-Head-Court, Fleet-street; but, since Mr. Parry's Death, as was sold only by Mr. Read for 3 s. 6 d. a Pot, at his White-Fryars. (N. B. You turn in just by the Tavern in Fleet-street, and it's the great Corner in White-Fryars; JAMES READ, in great Letters is wrote over the Door.)

They are a most incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the confirmed ASTHMA of the longest standing:

And all Sorts of CONSUMPTIONS, even when so far advanced, as not to be cured by any other Medicine in the World.

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffering Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the breast, and immediately Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonia in the lungs, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when seated. They are also exceeding nutritive and strengthening to Persons of weakly Constitution, and have no other sensible Operation than as mentioned above.

And by Parity of Reasoning this most excellent Medicine is (and well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; also for the Cough, and Hooping-Cough in Children, having cured Thousands; and are so pleasant, and so few Drops to a Dose, that Children take them with Pleasure, and without any Constraint.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (therefore they deserve the faint Efforts of any Counterfeits or Imitators) for the Ailments above-mentioned, and allowed to be so by the most judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, are therefore made Publick for Common Good.
